

# Rolling Shutters For Kiosk And Millwork Cabinetry

Two-point locking bottom bar for improved security.

Aluminum guides for smooth operation.

Mortise cylinder for ease of keying.

Metro Door's Rolling Shutters is the industry leading choice in business security offering peace-of-mind, dependable protection for a variety of applications, including retail, medical and government applications. These shutters were designed for the Kiosk and Millwork industry for ease of use and installation. Metro's 30 years of experience in developing security enclosures has resulted in an affordable, highly secure enclosure to protect against break-ins, theft and vandalism. Operation can be manual or motorized and each unit is custom manufactured to meet your needs. Give your business the security it needs, at an affordable cost with Metro Door's rolling shutters.
